BITUPAINT ALU

RESINOUS ALUMINIUM PAINT

Specific paint for bituminous coating

BITUPAINT ALU is a protective silver colored paint very compatible for bituminous coating (BITU-MAX VULCANO).

Mixing and application

BITUPAINT ALU can be applied on every type of dried surfaces; its specific application is as a protective coat on bituminous membranes to give pleasant look.

Product is ready for use. Stir the product before application and apply using a brush or a roll.

Recommendations

Do not apply BITUPAINT when weather is bad or if rain, fog or temperature under + C are expected. These conditions should be ensured for at least 12 hours after application. Provide for suitable slopes of the concrete in order to avoid prolonged water stagnation over the BITUPAINT film. Keep the cans at +5° C.

Chemical characteristics

Chemical properties	Water based paint
Colour	Bright aluminium
Dry bulk density	0,98 ± 0,02
Dry time	At surface: 30 min at 20°C – In depth 2 hours at 20°C
U.V. resistance	Very good
Resistance to foot traffic	Good
Allowed dilution	Ready for use
Leed	approved
Release of dangerous substances	See MSDS
Shelf life	12 months from production date in its original packaging (unopened container) between 5° and 30° C in a cool dry place.

* indicative values, depending on the nature of the material and environmental conditions

Coverage
1 kg for 10-15 m²

Storage
12 months in original intact packaging and stored in a dry place.

Packing
Drums of 10 kg and 20 kg

Safety procedures

As far as the proper working procedures is concerned, we recommend to consult Material Safety Data Sheets issued according to E.U. rules and to follow your national laws concerning safety in the working place. MSDS is available on our web site www.primaxbuild.it
